

TOWN AND COUNTRY PLANNING ACT 1990
TOWN AND COUNTRY PLANNING (DEVELOPMENT MANAGEMENT PROCEDURE) (ENGLAND)
ORDER 2015

Application number:	22/00375/FUL
Validated on:	29 th April 2022
Site address:	13 Cleeve Road
Proposal:	Proposed new dwelling adjoining 13 Cleeve Road including associated works, access and parking

In exercise of its powers under the above-mentioned Act and Order the City Council as the Local Planning Authority **GRANT PERMISSION** for the development described above in accordance with the terms of the application and the plan/s submitted therewith subject to the following conditions:

Condition 1

The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Reason

Required to be imposed by Section 91 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

Condition 2

The development hereby permitted shall be carried out in accordance with the application form, and drawing numbers 21214/1C Existing site plan, 21214/2C Existing plans & elevations, 21214/3C Proposed site & floor plans and 21214/4C Proposed block plan & elevations except where these may be modified by any other conditions attached to this permission.

Reason

To ensure that the development is carried out in accordance with the approved plans and in accordance with policies contained within the Gloucester, Cheltenham and Tewkesbury Joint Core Strategy (Adopted December 2017).

Condition 3

The external facing materials to the development hereby permitted shall match in colour, form and texture to those of the existing building.

Reason

To ensure the satisfactory appearance of the development in accordance with Policy SD4 of the Gloucester, Cheltenham and Tewkesbury Joint Core Strategy (Adopted December 2017)

Condition 4

Detailed Design for Surface Water Drainage

No development shall start until a detailed design, maintenance and management strategy and timetable of implementation for the surface water drainage strategy has been submitted to and approved in writing by the Local Planning Authority. The submitted strategy must demonstrate the technical feasibility and viability of the proposed drainage system through the use of SuDS to manage the flood risk to the site and elsewhere and the measures taken to manage the water quality for the lifetime of the development. The scheme for the surface water drainage shall be

implemented in accordance with the approved details and timetable and shall be fully operational before the development is first put in to use/occupied.

Reason

To ensure the development is provided with a satisfactory means of drainage and thereby reducing the risk of flooding. It is important that these details are agreed prior to the commencement of development as any works on site could have implications for drainage, flood risk and water quality in the locality.

Note 1

Your attention is drawn to the requirements of the Building Regulations, which must be obtained as a separate consent to this planning decision. You are advised to contact the Gloucestershire Building Control Partnership on 01453 754871 for further information.

Note 2

Your attention is drawn to the Party Wall Act 1996. The Act will apply where work is to be carried out on the following:

- Work on an existing wall or structure shared with another property.
- Building a free standing wall or a wall of a building up to or astride the boundary with a neighbouring property.
- Excavating near a neighbouring building.

The legal requirements of this Act lies with the building/ site owner, they must find out whether the works subject of this planning permission falls within the terms of the Party Wall Act 1996. There are no requirements or duty on the part of the local authority in such matters. Further information can be obtained from the DCLG publication Preventing and resolving disputes in relation to party walls – explanatory booklet.

Note 3

Severn Trent Water advise that there may be a public sewer located within the application site. Although statutory sewer records do not show any public sewers within the area you have specified, there may be sewers that have been recently adopted under the Transfer Of Sewer Regulations 2011. Public sewers have statutory protection and may not be built close to, directly over or be diverted without consent and contact must be made with Severn Trent Water to discuss the proposals. Severn Trent will seek to assist in obtaining a solution which protects both the public sewer and the building.

Please note that there is no guarantee that you will be able to build over or close to any Severn Trent sewers, and where diversion is required there is no guarantee that you will be able to undertake those works on a self-lay basis. Every approach to build near to or divert our assets has to be assessed on its own merit and the decision of what is or isn't permissible is taken based on the risk to the asset and the wider catchment it serves. It is vital therefore that you contact us at the earliest opportunity to discuss the implications of our assets crossing your site. Failure to do so could significantly affect the costs and timescales of your project if it transpires diversionary works need to be carried out by Severn Trent.

Note 4

In accordance with the requirements of the NPPF the Local Planning Authority has sought to determine the application in a positive and proactive manner by offering pre-application advice, publishing guidance to assist the applicant, and publishing to the council's website relevant information received during the consideration of the application thus enabling the applicant to be kept informed as to how the case was proceeding.
